SULTAN TO EMPEROR.

Grumbchow Pasha is the Bearer of an Important Message to the German Ruler.

Constantinople, August 3.—Grumbchow Pasha starts at once bearing a letter from the Sultan to the Kaiser. He stops on his way to communicate with the King of Roumania.

This mission is considered of high importance at this juncture.

A PARADE AND CONCERT.

The Twenty-First Regiment Again Reviewed by the President—Arrangements for His Trip to Isle la Motte.

Plattsburg, N. Y., August 3.—President McKinley reviewed the Twenty-first United States Infantry again today. The President sat with Mrs. McKinley at her own corner of the Hotel Champlain balcony, which was covered with bunting. The regulars showed to good advantage as they filed past, with their band playing lively airs. The hotel guests and about 1,000 townspeople watched the parade. A feature which elicited considerable applause was the regimental bicycle corps, commanded by Lieutenant Parks. When the review was over the Twenty-first band gave a concert. President and Mrs. McKinley seemed to thoroughly enjoy the entire proceedings.

Lieutenant Governor Fisk, of Vermont, and John W. Titcomb, president of the Vermont Fish and Game League, were the President's only visitors during the morning. Their call was for the purpose of arranging the details of the President's visit to the annual meeting of the game league on the Isle la Motte on the 6th inst. Governor Grout and Senator Proctor will arrive here on the 5th to accompany the President and party to Isle la Motte, via the steamer Maquan. On the 6th the President will be the guest of Lieutenant Governor Fisk. The President is not down for a speech, but it is expected that he will have something to say.

GOLD IN RUSSIA.

It is Believed a Field Has Been Discovered That Will Prove a Second California.

London, August 4.—The Chronicle says a Russian expedition has discovered twelve auriferous regions along the banks of the rivers Arichs, Lautara, and Nemooja and in other regions of the interior of the Sea of

Government Java. The market in Territory wool considerable activity, with prices. Fleece wool continues at prices largely nominal. Australia has had large sales at an advance.

VOLCANO DEALS OUT DEATH.

Five Hundred Persons Have Lost Their Lives and Fifteen Towns Laid in Ruins by Fire and Lava.

Chicago, August 3.—A special to the Chronicle from Tacoma, Wash., says: Five hundred reported killed up to July 11 is the record of the terrible outbreak of the great volcano of Mayon, Island of Luzon, one of the Philippine group. All night of June 26 this volcano began throwing up ashes and lava in immense quantities, and flames were thrown upward considerably over one hundred feet above the crater.

The next day fifty-six bodies were recovered at a considerable distance, and

beans, a man jumped from the bushes at Mosher's lane, and grasping one of the horses by the bridle brought the team to a stop. At the same time the fellow presented a gun and was proceeding to do the road agent business to perfection. Mr. Cole's pluck stood him in good stead, and he slashed the highwayman across the face with a whip. The blow frightened the horses and they dashed away.

Mr. Cole had sold a great deal of wheat yesterday and he was supposed to have the money with him.

STRUCK AN ICEBERG.

A BRITISH STRAMER MEETS WITH MANY MISHAPS.

The Crew Forced to Take to the Lifeboats and Are Later Picked Up.

Boston, August 4.—The British steamer Sagamore arrived from Liverpool yesterday with the entire crew of twenty-one men of the British tramp steamer Furtor, abandoned on July 27 in a sinking condition in latitude 50 degrees 50 minutes N., and longitude 53 degrees W. The Furtor was in command of Captain J. D. Jenkins, and sailed from West Bay, N. S., June 30, with a cargo of deals for Barry, Wales. On June 27 she ran into an iceberg, and was forced to put into St. Johns, N. S., for repairs. The Furtor again put to sea July 22. On July 25 a strong southerly gale sprang up, and the ship soon sprung a leak. The water gained gradually, but the crew

th almost recent dispatches to Hong Kong up to July 8 stated that not less than 500 people were known to be killed. It was probable, said the dispatches, that the loss of life would reach into the thousands, depending on the length of eruption. On that date lava streams and ashes had reached the cities of Bacacay, Malipot, and Liboy, and their destruction was certain.

Fifteen smaller towns between these and the volcano had been destroyed, and scores of the agricultural population had been overwhelmed while attempting to escape.

ing with them in triumph the twenty diggers who came out.

The campers at Sandy Creek had little to do. The mine is to all intents and purposes shut down. The output is not more than two cars a day. The capacity of the mine has been 100 cars a day. The normal output with the three mines in operation is 70 cars.

There has been no change so far at Oak Hill. A statement made by the miners that only

TWO MEN WERE WORKING

may be true. In that case the output of eight cars claimed for Monday and Tuesday will be decreased to one car. The extraordinary capacity of the mine is 120, and the normal capacity 90 cars. The demonstration against DeArmitt has had the effect of decreasing the capacity of 340 cars to 42 cars, with the probability of it being further reduced.

The campers at Turtle Creek were on the march at 3 a. m., and went to the Oak Hill mine. They marched back at 6:30 a. m., and had breakfast. Camp life has been reduced to a system. One hundred men were sent to Plum Creek, and 300 sent home, leaving 600 men in camp. They have divided into companies of 100 each, under a lieutenant. Provisions seem to be plentiful. The camp will be policed by strikers sworn in by Burgess Teats as borough police.

The hearing of President Dolan and the other miners' officials, charged with riot and

UNLAWFUL ASSEMBLAGE

is set for 2 o'clock this afternoon. It is thought that the case will be dropped by the defendants giving bail for court, and nolle pros being entered later.

One of the notable features of the strike of the miners has been the absence of effort by the operators to get their miners at work. There has been no meeting by them to consider the

FIRE IN CANTON.

The Snyder Hardware Stock Completely Destroyed—A Lamp Exploded and Started the Blaze.

Canton, O., August 3.—Fire to-day destroyed the hardware store lately owned by C. C. Snyder, but now in a receiver's hands. O. W. Meyers, a clerk, went to the oil cellar with a lighted lamp, which exploded and communicated fire to the oil barrels. Meyers ran out of the building, his clothing aflame, but escaped serious injury. The fire soon spread all over the building, which is in the business center, and threatened surrounding buildings.

Firemen worked five hours and succeeded in confining the fire to the hardware store. Half a dozen firemen were slightly injured by breaking glass, and William Merriman, a volunteer, had his leg broken. The loss is about \$50,000; fully insured.

Secretary Sherman Declines to Discuss the Report That One Had Established Over the Republic.

Amagansett, L. I., August 4.—Secretary Sherman has been interviewed by a representative of the Associated Press at his cottage here. He not only declines to discuss the report from Hawaii that United States Minister Sewall had been instructed to declare a protectorate over the island.

Referring to Whitelaw Reid, Mr. Sherman said it was only in the submitting of Mr. Reid's resignation as Special Ambassador to Hawaii. The question of my resignation, Mr. Sherman, "was not mentioned. I got tired of denying these rumors that arise from time to time. Mr. Sherman declared his intention for Mr. Reid in vigorous terms. Sherman will leave here for Washington on Friday.

Dead Man Found Near Dunkirk.

Dunkirk, O., August 3.—Late last
night, while section men were returning
to their homes at Ada, just west of
here, they discovered the dead body of
a man lying alongside the Pennsylvania
Railroad tracks. A coroner's inquest
was held and the verdict was the sup-
position that the man had fallen from
a train and was killed. He could not
be identified and will be buried by the
township.

Names Not to Count Any Names Which May be Written on the Caucus Tickets.

The W. J. Bryan Association made a
move at its meeting last night to check-
mate a reputed effort on the part of the
Farley faction managers to control the
new Democratic county central commit-
tee that is to be elected to-morrow
night at the caucuses.

Owen Gannon and Charles P. Salen
heard rumors yesterday and day be-
fore yesterday that Herbert H. Hyman
had decided not to let the county cen-
tral committee go by default, as the
Saturday convention is to go through
the sudden withdrawal of the Farley
opposition. Yesterday the rumors were
strong to that effect.

The plan of the Farley managers, it is
said by the silver men, was to have
Farley voters scratch from their tickets
the name of the committeeman

PRINTED ON THEM,

and write on the ticket the name of a
Farley man to be previously agreed up-
on in each ward. This would be the
only way the Farley faction could ac-
complish this end, since it will have no
tickets of its own in the field.

The control of the county committee
is a very important factor in politics,
since it names the chairman, who ap-
points the executive committee to man-
age the campaign. It has certain other
functions, but the one named is the one
most immediately important. The sil-
ver men assert that the Farley man-
agers thought that because they had no
tickets in the field the silver men would
consider a complete victory conceded,
and would not make an effort to get
out their full vote. In this case the
Farley men might have a chance, by
getting out their full vote, of naming
the majority of the members of the new
committee, even if they did not attempt
to control the convention.

"But we'll fool 'em," said Gannon and
Salen.

So last night the Bryan Association
was called upon to appoint a committee
which will this morning wait on the
Board of Elections and request that
body to immediately instruct its elec-
tion officers not to

COUNT AS VOTED FOR

any names that may be written on any
ballot. The officers will be instructed,
if the board grants this request, not to
count names that are scratched off the
ballot, but neither are they to count
names marked on. They are simply
to count names printed on the ballot
and not scratched off. It will be seen
that no matter how many names are
scratched off the Salen-Johnson faction
will not help but win if only printed

JUSTICE FIELD.

IT IS SAID HE IS ABOUT TO RETIRE TO PRIVATE LIFE.

Attorney General McKenna Slated for the Supreme Bench and Henry Hitchcock for McKenna's Place.

Washington, August 3.—A story is
current here to-night that Mr. Justice
Field will shortly retire from the Su-
preme bench and be succeeded by At-
torney General McKenna. It is said
that the person in the President's mind
for Attorney General to succeed Mr.
McKenna is Henry Hitchcock, of St.
Louis.

There is no certainty as to the time
when Justice Field will retire. As in-
dicated in these dispatches upon the se-
lection of Judge McKenna to be At-
torney General, it is well understood
that he will be Mr. Field's successor
when the vacancy occurs, but Judge
McKenna has no information which
prompts him to think that the change is
near at hand. As for the succession to
the Cabinet, it can be said that the
President has the highest regard for
Mr. Hitchcock. Had Missouri gone
Republican last fall, Mr. Hitchcock
might have been a member of the Cab-
inet to-day. Recently the President
has had in mind for the Russian mis-
sion Mr. Ethan Allen Hitchcock, a
brother of Mr. Henry Hitchcock, who is
one of the most valued of Mr. McKin-
ley's personal friends. Three Presi-
dents have considered Mr. Henry
Hitchcock in connection with vacancies
on the Supreme bench, and have only
given some one else the precedence on
each occasion for political reasons. Mr.
Hitchcock has been president of the
American Bar Association, and is
recognized as one of the ablest lawyers
in the country.

Discipline for a Priest.

St. Joseph, Mo., August 3.—A special

Thomas Fitzgerald has gone to Concep-
tion, Mo., to enter a monastery and
execute the sentence imposed upon him
by Mgr. Martinelli for the part he
took in the fight of three years ago on
Bishop Bonacum, of Nebraska. He will
remain in the monastery in entire se-
clusion for six months. This closes the
famous case growing out of the rebel-
lion of twenty-five priests of Nebraska
against their bishop, because of his
alleged tyranny.
